EXCHANGE OF NOTES BETWEEN HIS MAJESTY'S GOVERNMENT IN THE UNITED KINGDOM AND THE PORTUGUESE GOVERNMENT REGARDING THE DELIMITATION OF THE SOUTHERN RHODESIA-PORTUGUESE EAST AFRICA FRONTIER.

*London, October 29, 1940.*

No. 1.

*Viscount Halifax to Dr. A. R. de Sttau Monteiro.*

Your Excellency,

*Foreign Office, October 29, 1940.*

I HAVE the honour to inform you that His Majesty's Government in the United Kingdom of Great Britain and Northern Ireland, having considered the reports of the Commissioners appointed by the Portuguese Government and the Government of Southern Rhodesia to investigate and arrange certain matters affecting the frontier between Portuguese East Africa and Southern Rhodesia, are prepared to enter into an agreement with the Portuguese Government to confirm the findings of the Commissioners in the following terms:—

(1) The Government of the United Kingdom and the Portuguese Government approve the findings of the said Commissioners as set forth in the English and Portuguese texts of the Reports numbered I to X, with the accompanying maps and lists of co-ordinates which together form the annex<sup>(1)</sup> to the present agreement.

(2) In particular, and notwithstanding anything contained in an agreement concluded on the 3rd June, 1907, relating to the section of the boundary lying between the River Limpopo and the River Sabi, as provisionally demarcated by Mr. Atherstone and Colonel Serrano, the contracting Governments agree that the boundary line in this section shall be defined by a series of straight lines joining consecutive beacons numbered 1 to 34 erected at the points defined in paragraph 6 of Chapter III of Report No. II annexed hereto.<sup>(2)</sup>

(3) Notwithstanding anything contained in the agreement signed at Macequece on the 15th December, 1898, regarding the demarcation of that section of the boundary which lies between the River Honde and the River Sabi, the contracting Governments accept as constituting the boundary—

(a) in the sections between the Honde River and Beacon No. 22 and between Beacon No. 39 and Beacon No. 96, the line defined in the Commissioners' Report No. X annexed hereto<sup>(3)</sup>;

<sup>(1)</sup> Extracts only printed.

<sup>(2)</sup> See Extract No. 1.

<sup>(3)</sup> See Extract No. 2.

(b) in the section between Beacon No. 22 and Beacon No. 39, the line defined in the Commissioners' Report No. VI annexed hereto<sup>(4)</sup>;

(c) in the section between Beacon No. 96 and Beacon No. 107, the line defined in the Commissioners' Report No. V annexed hereto.<sup>(5)</sup>

(4) The contracting Governments agree that the boundary lines (a) between Beacon No. 107 and the Sabi River, (b) between the Sabi River and Beacon No. 34 (the most northerly beacon of the section of the boundary between the Limpopo River and the Sabi River), and (c) between Beacon No. 1 (the most southerly beacon of the section of the boundary between the Limpopo and Sabi Rivers) and the Thalweg of the Limpopo River shall be defined in the manner recommended in paragraph 6 of the Commissioners' Report No. X annexed hereto.<sup>(6)</sup>

(5) That the position of the boundary shall be as indicated on the ground by the permanent marks set up by the Joint Commission of 1932 to 1937, whether or not the actual positions of such marks agree with their calculated geographical co-ordinates, if any. Should any marks disappear, their positions should be re-established by reference to the values of their rectangular co-ordinates or angles and distances from adjoining pillars.

(6) The map on the scale of 1 : 250,000 annexed to the enclosed volume for the purpose of illustrating the boundary is adopted by the contracting Governments in lieu of the maps on the scales of 1 : 200,000 and 1 : 100,000 respectively recommended by the Boundary Commissioners on page 59 (Report No. VI) and page 86 (Report No. X) of the annexed volume.

2. If the Portuguese Government are likewise prepared to confirm the findings of the Boundary Commissioners as set forth above, I have the honour to suggest that this present note and your Excellency's reply in similar terms be regarded as constituting an agreement between the two Governments which shall take effect this day.

I have, &c.  
HALIFAX.

(4) See Extract No. 3.

(5) See Extract No. 4.

(6) See Extract No. 5.

## EXTRACT No. 2.

*Section between the Honde River and Beacon No. 22.*

Beacon No. 1 was placed at a point 43 metres from the junction of the waterways (Thalwege) of the Rivers Honde and Garura. The Azimuth from the junction to beacon No. 1 is 38° reckoned from True South.

The Commissioners agree that for the future the frontier along this section shall run from the junction of the waterway (Thalweg) of the Rivers Honde and Garura in a straight line to beacon No. 1, and from beacon No. 1 to beacon No. 22 the frontier will be defined by straight lines joining consecutive beacons even where the 1898-1899 agreement stated that the frontier should follow the watershed.

*Section between Beacon No. 39 and Beacon No. 96.*

From beacon No. 39 to beacon No. 74 the frontier shall follow the straight lines between consecutive beacons;

From beacon No. 74 to beacon No. 75 the frontier shall follow the Thalweg of the Haroni River;

From beacon No. 75 to beacon No. 76 the frontier shall follow the Thalweg of the Lusitu River;

From beacon No. 76 to beacon No. 96 the frontier shall be defined by straight lines between consecutive beacons.

A full list of the angles and distances agreed upon follows:—

EXTRACT No. 3.

*Section between Beacon No. 22 and Beacon No. 39.*

The frontier between beacons No. 22 and No. 39 will be defined by the straight lines joining consecutive beacons even in those places where the 1898-1899 agreement stated that the frontier should follow the watershed.

A list of all the beacons on this section of the frontier, showing the distance between the beacons and the angle at each beacon, follows herewith:—

| <i>Beacons.</i> | <i>Angles.</i> | <i>Distances.</i> | <i>Beacons.</i> | <i>Angles.</i> | <i>Distances.</i> |
|-----------------|----------------|-------------------|-----------------|----------------|-------------------|
|                 | °              | <i>Metres.</i>    |                 | °              | <i>Metres.</i>    |

## EXTRACT NO. 4.

*Section between Beacon No. 96 and Beacon No. 107.*

The present Commission considers that the frontier is now definitely fixed between beacon No. 96 and the Sabi River (beacon No. 107), and proposes that the line runs as follows: From beacon No. 96 to beacon No. 100 the boundary follows the straight line from each of those beacons to the one next to it. From beacon No. 100 to beacon No. 100A the boundary follows the Thalweg of the River Nyamgamba (Inhangamba). From beacon No. 100A to beacon No. 106 the boundary follows the straight line from each of these beacons to the one next to it. From beacon No. 106 to beacon No. 106A the boundary follows the Thalweg of the Rupembi (Pembi) River. From beacon No. 106A to beacon No. 107 the boundary follows the straight line from each of these beacons to the one next to it.

The mean values of the angles and distances are as follows:—

| <i>Beacons.</i> | <i>Angles.</i> | <i>Distances</i>  | <i>Line of Frontier.</i>          |
|-----------------|----------------|-------------------|-----------------------------------|
|                 | °              | <i>in Metres.</i> |                                   |
| No. 96          |                |                   |                                   |

## EXTRACT No. 5.

*Section between Beacon No. 107 and the Rivers Sabi and Limpopo.*

Starting at a point where the prolongation of the straight line from beacon No. 106B to beacon No. 107 strikes the Thalweg of the Sabi River, the boundary shall follow the Thalweg of the Sabi River to a point at the junction of the Rivers Sabi and Lundi, where the prolongation of the straight line from beacon No. 33 to beacon No. 34 strikes the Thalweg of the Sabi River, and from this point in a straight line to beacon No. 34. From beacon No. 34 to beacon No. 1 on the Limpopo River the frontier shall be defined by straight lines joining consecutive beacons, and from beacon No. 1 to a point where the prolongation of the straight line from beacon No. 2 to beacon No. 1 strikes the Thalweg of the Limpopo River.

## No. 2.

*Dr. A. R. de Sttau Monteiro to Viscount Halifax.*

*Embaixada de Portugal,*

My Lord,

29 de outubro de 1940.

TENHO a honra de acusar a recepção da nota de Vossa Excelencia desta data e de comunicar a Vossa Excelencia que o Governo da República Portuguesa, tendo examinado as actas dos Commissários designados pelo Governo Português e pelo Governo da Rhodésia do Sul para investigar e resolver certos assuntos que dizem respeito á fronteira entre a Africa Oriental Portuguesa e a Rhodésia do Sul, está disposto a entrar em acôrdo com o Governo de Sua Magestade Britânica para a aprovação das resoluções tomadas por aquêles Commissários, nos termos seguintes :

(1) O Governo da República Portuguesa e o Governo do Reino Unido aprovam as resoluções dos ditos Commissários constantes dos textos português e inglês das actas numeradas de I a X, mapas que as acompanham e relações de coordenadas, que conjuntamente constituem o anexo do presente acôrdo.

(2) Em especial e não obstante o que se contém num acôrdo concluído em 3 de junho de 1907 relativamente á secção da fronteira compreendida entre os rios Limpôpo e Save, provisoriamente demarcada pelo Coronel Serrano e Mr. Atherstone, os Governos interessados concordam em que a fronteira nesta região seja definida por uma série de linhas rectas, ligando os marcos consecutivos, numerados de 1 a 34, construídos nos pontos definidos no paragrafo 6 do capitulo III da acta No. II, aqui apensa.

(3) Não obstante o que se contém no acôrdo assinado em Macequece em 15 de dezembro de 1898 relativamente á demarcação da secção da fronteira situada entre os rios Honde e Save, os Governos interessados aceitam que a fronteira seja assim delimitada :

(a) Nas secções entre o rio Honde e o marco No. 22 e entre os marcos Nos. 39 e 96, pela linha definida na acta No. X dos Commissários, apensa ;

(b) Na secção entre os marcos Nos. 22 e 39, pela linha definida na acta No. VI, apensa;

(c) Na secção compreendida entre os Nos. 96 e 107, pela linha definida na acta No. V, apensa.

(4) Os Govêrnos interessados concordam em que as linhas da fronteira (a) entre o marco No. 107 e o rio Save, (b) entre o rio Save e o marco No. 34 (o marco mais ao norte na secção da fronteira entre os rios Limpôpo e Save) e (c) entre o marco No. 1 (o mais ao sul na secção da fronteira entre os rios Limpôpo e Save) e o thalweg do rio Limpôpo, sejam definidas conforme a descripção feita no paragrafo 6 da acta No. X, apensa.

(5) Que a situação da fronteira seja a indicada no terreno pelos marcos construidos pela Comissão mixta de 1932 a 1937, quer a posição dêstes marcos concorde quer não com as coordenadas geográficas que tenham sido determinadas. Se algum marco desaparecer, será restabelecido por intermédio das suas coordenadas rectangulares ou por angulos e distancias aos pilares contíguos.

(6) O mapa na escala de 1 : 250.000 anexo ao volume apenso com o fim de mostrar o traçado da fronteira, é adoptado pelos Govêrnos interessados em lugar dos mapas na escala de 1 : 200.000 e 1 : 100.000 recomendados pelos Commissários na página 59 (acta No. VI) e página 68 (acta No. X) do volume apenso.

A nota de Vossa Excelencia a que respondo e a presente nota em termos semelhantes serão consideradas como estabelecendo o acôrdo entre os dois Govêrnos, que entrará em vigor nesta data.

Aproveito, &c.

ARMINDO MONTEIRO.

(Translation.)

My Lord,

*Portuguese Embassy, October 29, 1940.*

I HAVE the honour to acknowledge receipt of your Excellency's note of to-day's date, and to inform you that the Government of the Portuguese Republic, having considered the reports of the Commissioners appointed by the Portuguese Government and the Government of Southern Rhodesia to investigate and arrange certain matters affecting the frontier between Portuguese East Africa and Southern Rhodesia, are prepared to enter into an agreement with His Britannic Majesty's Government to confirm the findings of the Commissioners in the following terms :—

[As in No. 1.]

2. Your Excellency's note to which I reply and the present note in similar terms shall be regarded as constituting an agreement between the two Governments which shall take effect this day.

I avail, &c.

ARMINDO MONTEIRO.
