OBJECTIONS TO AMENDMENTS

NORWAY

Objection contained in a letter from the Directorate for Nature Management of 9 April 1991 registered at the Secretariat on 11 April 1991—Or. Eng.

Norway is not going to notify any objection with respect to the inclusion of additional higher plants (ferns and flowering plants) to Appendix I to the Convention.

The Directorate for Nature Management will however, on behalf of the Norwegian Government, hereby notify a *partial* objection with respect to the inclusion of Bryophytes in Appendix I. The objection does only apply to the obligations in Article 5, that is:

“ Each Contracting Party shall take appropriate and necessary legislative and administrative measures to ensure the special protection of wild flora species specified in Appendix I. Deliberate picking, collecting, cutting or uprooting of such plants shall be prohibited. Each Contracting Party shall, as appropriate, prohibit the possession or sale of these species.”

The objection does not cover obligations contained in other Articles of the Convention, such as the obligations following from Article 4, paragraph 1:

“ Each Contracting Party shall take appropriate and necessary legislative and administrative measures to ensure the conservation of the habitats of the wild flora and fauna species, especially those specified in the Appendices I and II, and the conservation of endangered natural habitats”.

In other words, Norway does not object to ensuring habitats of the Bryophyte species included in Appendix I. However, we do not at the present stage intend to adopt legislative species protection measures for these plants.

The objection applies to all Bryophyte species added to Appendix I. According to our present knowledge the following species are registered in Norway: *Scapania massalongi*, *Atractylocarpus alpinus*, *Buxbaumia viridis*, *Cynodontium suecicum*, *Dicranum viride*, *Drepanocladus vernicosus*, *Meesia longiseta* and *Orthotrichum rogeri*.

DENMARK

Objection contained in a letter from the Permanent Representative of Denmark dated 10 April 1991 registered at the Secretariat General on 11 April 1991—Or. Eng.

I hereby, on behalf of the Danish authorities, have the honour to notify a partial objection in respect to the inclusion of lower plants (Bryophytes) to Appendix I. The objection is partial in the sense that it only concerns the obligations in Article 5, and it does not concern obligations according to other Articles of the Convention that follows from the amendment. In particular, it does not concern Article 4, paragraph 1.

Denmark thus has no objections to ensure the habitats of the Bryophytes with Danish occurrence included in connection with the amendment of Appendix I, but it does not intend to carry out legislative species protection of these plants.

The objection applies to all Bryophyte species in Appendix I occurring in Denmark. According to present knowledge this includes the following five species from the amended list:

- Buxbaumia viridis*
- Dichelyma capillaceum*
- Drepanocladus vernicosus*
- Meesia longiseta*
- Orthotrichum rogeri*

For the sake of good order I add that Denmark is not notifying any objections in connection with the amendments concerning higher plants (Ferns and Flowering plants) to Appendix I of the Convention.
