ANNEX V

Reservations of Georgia in accordance with Article 23(4)

1. Current Georgian investment legislation requires investments by foreign companies and investments by Georgian companies in which the state does not hold a controlling interest' to be licensed by the competent Georgian authorities. The conditions for the issue of such licences shall not result in discrimination between private Georgian and foreign companies, as set out in Georgian law.

Such licensing may not be used in order to nullify the benefits accorded to Community companies pursuant to Article 23(4) of this Agreement, nor to circumvent any other provisions of this Agreement. In particular it may not be used to impede the establishment of Community Companies in any area of economic activity, except as provided for below. No license may be revoked without due justification and any such revocation may be subject to appeal and, if necessary, dispute settlement.

At the latest by 31 December 1998, Georgia shall bring its legislation on licensing into conformity with standard international practice and in particular with Community legislation. The Community shall provide technical assistance in this area. During this transitional period, Georgia shall not take any measures or actions which render the conditions for establishment and operations of Community companies more restrictive than the situation on the day preceding the date of initialling of this Agreement.

2. Foreign investment is prohibited in the following areas:

- defence and security of Georgia;
- preparation and sale of narcotics and psychotropic substances;
- cultivation and sale of plants containing narcotic or poisonous substances.

3. A foreign company requires special permission from the competent authorities in Georgia if it wishes to carry out activities within 20km of Georgia's borders or in other zones designated as vital to national security or for the protection of Georgia's environment.

4. In the following areas of economic activity, Georgian legislation requires the State to hold at least 51 per cent of the shares of enterprises with foreign participation. This percentage may be reduced if the Parliament of Georgia so determines:

Operation of gas and oil pipelines, communication and power transmission lines, thermal lines of national importance and the buildings and other facilities essential for their operation;

Operation of motor highways and railways, airports and maritime ports of national importance in Georgia;

Issue of securities, bank notes, coins and stamps;

Treatment of patients suffering from highly dangerous infectious diseases, including contagious skin and venereal diseases and mental disorders;

Veterinary treatment of animals suffering from dangerous diseases;

Production of raw spirit.

5. Whereas Georgian legislation does not discriminate between foreign investors and Georgian non-state enterprises regarding the long-term leasing of land, it does not currently allow them to purchase land or natural resources.

6. Foreign companies willing to prospect for or to exploit mineral deposits, as to extract and exploit natural resources in Georgia or on Georgia's continental shelf, require a concession from the Government of Georgia.

¹As defined in the Joint Declaration to this Agreement concerning the notion of "control".

The application of the reservations in this Annex can in no case result in treatment less favourable than that accorded to companies of any third country. Any relaxation of these restrictions will be extended to Community companies on the basis of national treatment or most-favoured-nation treatment, whichever is the better.

The future development of investment legislation in Georgia will take place in conformity with the provisions and the spirit of this Agreement including in particular its General Principles, the conditions affecting the establishment and operation of companies, and the provisions regarding legislative co-operation (Titles I, IV and V) as well as the Exchange of Letters between the Community and Georgia in Relation to the Establishment of Companies.

Application

1. The application of this Protocol shall be entrusted to the central customs authorities of Georgia on the one hand and the competent services of the Commission of the European Communities and, where appropriate, the customs authorities of the Member States on the other. **EXCHANGE OF LETTERS
BETWEEN THE COMMUNITY AND GEORGIA
IN RELATION TO THE ESTABLISHMENT OF COMPANIES**

A. Letter from the Government of Georgia

Sir,

I refer to the Partnership and Cooperation Agreement initialled on 15.XII.1995.

As I underlined during the negotiations, Georgia grants to Community companies establishing and operating in Georgia in certain respects a privileged treatment. I explained that this reflects the Georgian policy to promote by all means the establishment of Community companies in Georgia.

With this in mind, it is my understanding that during the period between the date of initialling of this Agreement and the entry into force of the relevant articles on establishment of companies, Georgia shall not adopt measures or regulations which would introduce or worsen discrimination of Community companies vis-à-vis Georgian companies or companies from any third country as compared to the situation existing on the date of initialling of this Agreement.

I would be obliged if you would acknowledge receipt of this letter.

Please accept, Sir, the assurance of my highest consideration.
