It shall accompany and consolidate the rapprochement between the Community and Romania, support the political and economic changes underway in that country and contribute to the establishment of new links of solidarity and new forms of co-operation. The political dialogue:

Each Party declares its readiness to reduce its customs duties in trade with the other Party more rapidly than is provided for in Articles 10 and 11 if its general economic situation and the situation of the economic sector concerned so permit.

The Association Council may make recommendations to this effect.

ARTICLE 16

Protocol No. 1 lays down the arrangements applicable to the textile products referred to therein.

ARTICLE 17

Protocol No. 2 lays down the arrangements applicable to products covered by the Treaty establishing the European Coal and Steel Community.

ARTICLE 18

1. The provisions of this Chapter do not preclude the retention by the Community of an agricultural component in the duties applicable to products listed in Annex X in respect of products originating in Romania.

2. The provisions of this Chapter do not preclude the introduction of an agricultural component by Romania in the duties applicable to the products listed in Annex X in respect of products originating in the Community.

CHAPTER II

Agriculture

ARTICLE 19

1. The provisions of this Chapter shall apply to agricultural products originating in the Community and in Romania.
2. The term "agricultural products" means the products listed in Chapters 1 to 24 of the Combined Nomenclature and the products listed in Annex I, but excluding fishery products as defined by Regulation (EEC) No. 3687/91.

ARTICLE 20

Protocol No. 3 lays down the trade arrangements for processed agricultural products which are listed in such protocol.

ARTICLE 21

1. The Community shall abolish at the date of entry into force of the Agreement the quantitative restrictions on imports of agricultural products originating in Romania maintained by virtue of Council Regulation (EEC) No. 3420/83 in the form existing on the date of signature hereof.
2. The agricultural products originating in Romania listed in Annexes XIa and XIb shall benefit, upon the date of entry into force of this Agreement, from the reduction of levies within the limit of Community quotas or from the reduction of customs duties and upon the conditions provided in the same Annexes.
3. Romania shall abolish quantitative restrictions on imports of agricultural products originating in the Community upon entry into force of the Agreement.
4. The Community and Romania shall grant each other the concessions referred to in Annexes XIIa, XIIb and XIII, on a harmonious and reciprocal basis, in accordance with the conditions laid down therein.
5. Taking account of the volume of trade in agricultural products between them, of their particular sensitivity, of the rules of the Common Agricultural Policy of the Community, of the role of agriculture in Romania's economy, and of the consequences of the multilateral trade negotiations under the General Agreement on Tariffs and Trade, the Community and Romania shall examine in the Association Council, product by product and on an orderly and reciprocal basis, the possibilities of granting each other further concessions.
6. Taking account of the need for an increased harmony between the agricultural policies in the Community and Romania, as well as Romania's objective of becoming a member of the Community, both Parties will have regular consultations in the Association Council on the strategy and practical modalities of their respective policies.

ARTICLE 22

Notwithstanding other provisions of this Agreement, and in particular Article 31, if, given the particular sensitivity of the agricultural markets, imports of products originating in one Party, which are the subject of concessions granted in Article 21, cause serious disturbance to the markets in the other Party, both Parties shall enter into consultations immediately to find an appropriate solution. Pending such a solution, the Party concerned may take the measures it deems necessary.

CHAPTER III

Fisheries

ARTICLE 23

The provisions of this Chapter shall apply to fishery products originating in the Community and in Romania, which are covered by Regulation (EEC) No. 3687/91 on the common organization of the market in fishery products.

2. The Association Council will examine the possibility of concluding an Agreement on fishery products between the Parties when the necessary conditions so permit.

CHAPTER IV

Common provisions

ARTICLE 25

The provisions of this Chapter shall apply to trade in all products, except where otherwise provided herein or in Protocols Nos. 1, 2 or 3.

ARTICLE 26

1. No new customs duties on imports or exports or charges having equivalent effect shall be introduced, nor shall those already applied be increased, in the trade between the Community and Romania from the date of entry into force of the Agreement.
2. No new quantitative restrictions on imports or exports or measures having equivalent effect shall be introduced, nor shall those existing be made more restrictive, in the trade between the Community and Romania from the date of entry into force of the Agreement.
3. Any new customs duties on imports or exports or charges having equivalent effect or increases thereof or any new quantitative restrictions or charges having equivalent effect or increases thereof introduced by Romania after the beginning of the negotiations shall be abolished at the latest at the entry into force of the Agreement.
4. Without prejudice to the concessions granted under Article 21, the provisions of paragraphs 1 and 2 of this Article shall not restrict in any way the pursuance of the respective agricultural policies of Romania and the Community or the taking of any measures under such policies.

ARTICLE 27

1. The two Parties shall refrain from any measure or practice of an internal fiscal nature establishing, whether directly or indirectly, discrimination between the products of one Party and like products originating in the territory of the other Party.
2. Products exported to the territory of one of the two Parties may not benefit from repayment of internal taxation in excess of the amount of direct or indirect taxation imposed on them.

ARTICLE 28

1. This Agreement shall not preclude the maintenance or establishment of customs unions, free trade areas or arrangements for frontier trade except insofar as they alter the trade arrangements provided for in this Agreement.
2. Consultations between the Parties shall take place within the Association Council concerning Agreements establishing such customs unions or free trade areas and, where requested, on other major issues related to their respective trade policies with third countries. In particular in the event of a third country acceding to the Community, such consultations shall take place so as to ensure that account can be taken of the mutual interests of the Community and Romania stated in this Agreement.

ARTICLE 29

Exceptional measures of limited duration which derogate from the provisions of Articles 11 and 26(1) may be taken by Romania in the form of increased customs duties.

These measures may only concern infant industries, or certain sectors undergoing restructuring or facing serious difficulties, particularly where these difficulties produce important social problems.

Customs duties on imports applicable in Romania to products originating in the Community introduced by these measures may not exceed 25% *ad valorem* and shall maintain an element of preference for products originating in the Community. The total value of imports of the products which are subject to these measures may not exceed 15% of total imports from the Community of industrial products as defined in Chapter I, during the last year for which statistics are available.

These measures shall be applied for a period not exceeding five years, unless a longer duration is authorized by the Association Council. They shall cease to apply at the latest at the expiration of the transitional period.

No such measures can be introduced in respect of a product if more than three years have elapsed since the elimination of all duties and quantitative restrictions or charges or measures having an equivalent effect concerning that product.

Romania shall inform the Association Council of any exceptional measures it intends to take and, at the request of the Community, consultations shall be held in the Association Council on such measures and the sectors to which they apply before they are applied. When taking such measures, Romania shall provide the Association Council with a schedule for the elimination of the customs duties introduced under this Article. This schedule shall provide for a phasing out of these duties starting at the latest two years after their introduction at equal annual rates. The Association Council may decide on a different schedule.

ARTICLE 30

If one of the Parties finds that dumping is taking place in trade with the other Party within the meaning of Article VI of the General Agreement on Tariffs and Trade, it may take appropriate measures against this practice in accordance with the Agreement relating to the application of Article VI of the General Agreement on Tariffs and Trade, with related internal legislation and with the conditions and procedures laid down in Article 34.

ARTICLE 31

Where any product is being imported in such increased quantities and under such conditions as to cause, or threaten to cause:

- serious injury to domestic producers of like or directly competitive products in the territory of one of the Parties, or
- serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region,

the Community or Romania, whichever is concerned, may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 34.

ARTICLE 32

Where compliance with the provisions of Articles 14 and 26 leads to:

- (i) re-export towards a third country against which the exporting Party maintains, for the product concerned, quantitative export restrictions, export duties or measures having equivalent effect;
- or

(ii) a serious shortage, or threat thereof, of a product essential to the exporting Party, and where the situations above referred to give rise, or are likely to give rise to major difficulties for the exporting Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 34. The measures shall be non-discriminatory and be eliminated when conditions no longer justify their maintenance.

ARTICLE 33

The Member States and Romania shall progressively adjust any State monopolies of a commercial character so as to ensure that, by the end of the fifth year following the entry into force of this Agreement, no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States and of Romania. The Association Council will be informed about the measures adopted to implement this objective.

ARTICLE 34

1. In the event of the Community or Romania subjecting imports of products liable to give rise to the difficulties referred to in Article 31 to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.

2. In the cases specified in Articles 30, 31 and 32, before taking the measures provided for therein or, in cases to which paragraph 3(d) applies, as soon as possible, the Community or Romania as the case may be shall supply the Association Council with all relevant information, with a view to seeking a solution acceptable to the two Parties.

In the selection of measures, priority must be given to those which least disturb the functioning of this Agreement.

The safeguard measures shall be notified immediately to the Association Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

3. For the implementation of paragraph 2, the following provisions shall apply:

(a) As regards Article 31, the difficulties arising from the situation referred to in that Article shall be referred for examination to the Association Council, which may take any decision needed to put an end to such difficulties.

If the Association Council or the exporting Party has not taken a decision putting an end to the difficulties or no other satisfactory solution has been reached within thirty days of the matter being referred, the importing Party may adopt the appropriate measures to remedy the problem. These measures must not exceed the scope of what is necessary to remedy the difficulties which have arisen.

(b) As regards Article 30, the Association Council shall be informed of the dumping case as soon as the authorities of the importing Party have initiated an investigation. When no end has been put to the dumping or no other satisfactory solution has been reached within thirty days of the matter being referred to the Association Council, the importing Party may adopt the appropriate measures.

(c) As regards Article 32, the difficulties arising from the situations referred to in that Article shall be referred for examination to the Association Council.

The Association Council may take any decision needed to put an end to the difficulties. If it has not taken such a decision within thirty days of the matter being referred to it, the exporting Party may apply appropriate measures on the exportation of the product concerned.

(d) Where exceptional circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or Romania whichever is concerned may, in the situations specified in Articles 30, 31 and 32, apply forthwith the precautionary and provisional measures strictly necessary to deal with the situation, and the Association Council will be informed immediately.

ARTICLE 35

Protocol No. 4 lays down rules of origin for the application of tariff preferences foreseen in this Agreement.

ARTICLE 36

This Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals and plants; the protection of natural resources; the protection of national treasures of artistic, historic or archaeological value or the protection of intellectual, industrial and commercial property or rules relating to gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

ARTICLE 37

Protocol No. 5 lays down the specific provisions to apply to trade between Romania of the one part and Spain and Portugal of the other part.

TITLE IV

Movement of Workers, Establishment, Supply of Services

CHAPTER I

Movement of workers

ARTICLE 38

 - the treatment accorded to workers of Romanian nationality, legally employed in the territory of a Member State shall be free from any discrimination based on nationality, as regards working conditions, remuneration or dismissal, as compared to its own nationals;
 - the legally resident spouse and children of a worker legally employed in the territory of a Member State, with the exception of seasonal workers and of workers coming under bilateral Agreements in the sense of Article 42, unless otherwise provided by such Agreements, shall have access to the labour market of that Member State, during the period of that worker's authorized stay of employment.
2. Romania shall, subject to the conditions and modalities applicable in that country, accord the treatment referred to in paragraph 1 to workers who are nationals of a Member State and are legally employed in its territory as well as to their spouse and children who are legally resident in the said territory.

ARTICLE 39

1. With a view to co-ordinating social security systems for workers of Romanian nationality, legally employed in the territory of a Member State and for the members of their family, legally resident there, and subject to the conditions and modalities applicable in each Member State,
 - all periods of insurance, employment or residence completed by such workers in the various Member States shall be added together for the purpose of pensions and annuities in respect of old age, invalidity and death and for the purpose of medical care for such workers and such family members;
 - any pensions or annuities in respect of old age, death, industrial accident or occupational disease, or of invalidity resulting therefrom, with the exception of non-contributory benefits, shall be freely transferable at the rate applied by virtue of the law of the debtor Member State or States;
 - the workers in question shall receive family allowances for the members of their family as defined above.
2. Romania shall accord to workers who are nationals of a Member State and legally employed in its territory, and to members of their families legally resident there, treatment similar to that specified in the second and third indents of paragraph 1.

ARTICLE 40

1. The Association Council shall by decision adopt the appropriate provisions to implement the objective set out in Article 39.
2. The Association Council shall by decision adopt detailed rules for administrative co-operation providing the necessary management and control guarantees for the application of the provisions referred to in paragraph 1.

ARTICLE 41

The provisions adopted by the Association Council in accordance with Article 40 shall not affect any rights or obligations arising from bilateral Agreements linking Romania and the Member States where those Agreements provide for more favourable treatment of nationals of Romania or of the Member States.

ARTICLE 42

1. Taking into account the labour market situation in the Member State, subject to its legislation and to the respect of rules in force in that Member State in the area of mobility of workers,
 - the existing facilities for access to employment for Romanian workers accorded by Member States under bilateral Agreements ought to be preserved and if possible improved,
 - the other Member States shall consider favourably the possibility of concluding similar Agreements.
2. The Association Council shall examine granting other improvements including facilities of access for professional training, in conformity with rules and procedures in force in the Member States, and taking account of the labour market situation in the Member States and in the Community.

ARTICLE 43

During the second stage referred to in Article 7, or earlier if so decided, the Association Council shall examine further ways of improving the movement of workers, taking into account *inter alia* the social and economic situation and requirements in Romania and the employment situation in the Community. The Association Council shall make recommendations to such end.

ARTICLE 44

In the interest of facilitating the restructuring of labour resources resulting from the economic restructuring in Romania the Community shall provide technical assistance for the establishment of a suitable social security system in Romania as set out in Article 89.

CHAPTER II

Establishment

PROTOCOL No. 1

on textile and clothing products

ARTICLE 1

This Protocol applies to the textile and clothing products (hereinafter "textile products") defined as follows:

- for quantitative purposes, textiles products are those listed in Annex I to the bilateral agreement between the Community and Romania on trade in textile products initialled on 11 July 1986 and applied provisionally since 1 January 1987, as amended by the Exchange of Letters initialled in Brussels on 20 September 1991, and to those products listed in Table I of the Annex to the agreement in the form of an exchange of letters which is an integral part of the aforementioned bilateral agreement initialled on 11 July 1986;
- for tariff purposes, textile products are those in section XI (chapters 50 to 63) of the Combined Nomenclature of the Community, and, respectively, of the Romanian Customs Tariff.

ARTICLE 2

1. Customs duties on imports applicable in the Community to textile products falling within section XI (chapters 50 to 63) of the Combined Nomenclature and originating in Romania in accordance with Protocol 4 of the Agreement shall be reduced in order to arrive at their elimination at the end of a period of six years starting from the entry into force of the Agreement, as follows:

- upon entry into force of the Agreement to five-sevenths of the basic duty;
- at the start of the third year to four-sevenths of the basic duty;
- at the start of the fourth year to three-sevenths of the basic duty;
- at the start of the fifth year to two-sevenths of the basic duty;
- at the start of the sixth year to one-seventh of the basic duty;
- at the start of the seventh year the remaining duties shall be eliminated.

2. Customs duties on imports applicable in Romania to textile products falling within section XI (chapters 50 to 63) of the Romanian Customs Tariff and originating in the Community in accordance with Protocol No. 4 of the Agreement, shall be progressively eliminated as provided for in Article 11 of the Agreement.

3. The customs duties applicable to compensating products imported into the Community which originate in Romania within the meaning of Protocol No. 4 of the Agreement, and which result from operations in Romania in accordance with Council Regulation (EC) No. 636/82, shall be eliminated on the date of entry into force of the Agreement.

4. The provisions of Article 12 and Article 13 of the Agreement shall apply to trade in textile products between the Parties.

ARTICLE 3

1. From the date of entry into force of the Agreement until the entry into force of the Protocol referred to in paragraph 2 below, the quantitative arrangements and other related issues regarding exports of textile products originating in Romania to the Community shall continue to be governed by the bilateral agreement on trade in textile products between the Community and Romania, initialled on 11 July 1986 and applied provisionally since 1 January 1987, as amended by the Exchange of Letters initialled in Brussels on 20 September 1991. The Parties agree to amend as necessary the aforementioned bilateral agreement on trade in textile products to take account of the Community's policy on textiles after 1 January 1993.

The Parties agree that, as regards exports to the Community of textiles products originating in Romania, Article 26, paragraph 2 and Article 31 of the Agreement shall not apply during the period of application of the aforementioned bilateral agreement on trade in textile products.

2. Romania and the Community hereby undertake to negotiate a new Protocol on quantitative arrangements and other related issues on their trade in textile products as soon as possible, taking into account the future regime governing international trade in textile products under discussion in the multilateral negotiations in Geneva. The modalities and period during which non-tariff barriers shall be eliminated will be determined in the new Protocol. The period shall be equal to half the integration period to be decided in the Uruguay Round negotiations starting from 1 January 1994 and it shall not be shorter than five years starting from 1 January 1993 or from the entry into force of the Agreement, if later. The new Protocol shall follow on the expiration of the Agreement on textile products referred to in paragraph 1 above.

3. Taking into account the development of textile trade between the Parties, the degree of access of textile exports originating in the Community to Romania and the results of the multilateral trade negotiations of the Uruguay Round, provision will be made in the new Protocol for a substantial improvement of the regime applied to imports into the Community regarding import levels, growth rates, flexibility for quantitative limitations and elimination of certain quantitative limitations after a case-by-case examination. Notwithstanding Article 26, paragraph 2 and Article 31 of the Agreement, provision for a specific textiles safeguard mechanism shall also be made in the new Protocol. Such a mechanism shall not be globally more restrictive than the safeguard mechanism provided for in the textile Agreement referred to in paragraph 1 above.

4. Quantitative restrictions and measures of equivalent effect on imports of Community textile products into Romania shall be abolished over the same period as is envisaged for the elimination of quantitative restrictions and measures of equivalent effect on imports of Romanian textile products into the Community.

ARTICLE 4

From the entry into force of the Agreement until the entry into force of the new Protocol, no new quantitative restrictions or measures of equivalent effect shall be imposed except as provided for under the Agreement and its Protocols.

ARTICLE 9

1. The following are incompatible with the proper functioning of the Agreement, insofar as they may affect trade between the Community and Romania:

1. all agreements of co-operative or concentrative nature between undertakings, decisions by associations of undertakings and concerted practices between undertakings which have as their object or effect the prevention, restriction or distortion of competition;
2. abuse by one or more undertakings of a dominant position in the territories of the Community or of Romania as a whole or in a substantial part thereof;
3. public aid in any form whatsoever except derogations allowed pursuant to the ECSC Treaty.

2. Any practices contrary to this Article shall be assessed on the basis of criteria arising from the application of the rules of Articles 65 and 66 of the Treaty establishing the ECSC, and of Articles 85 and 86 of the Treaty establishing the EEC and the rules on State aids, including the secondary legislation.

4. The Contracting Parties recognize that during the first five years after the entry into force of the Agreement, and by derogation from paragraph 1(3) of this Article, Romania may exceptionally, as regards ECSC steel products, grant public aid for restructuring purposes, provided that:

- it leads to the viability of the benefiting firms under normal market conditions at the end of the restructuring period;
- the amount and intensity of such aid are strictly limited to what is absolutely necessary in order to restore such viability and are progressively reduced;
- the restructuring programme is linked to a global rationalizing and reduction of capacity in Romania.

5. Each Party shall ensure transparency in the area of public aid by a full and continuous exchange of information to the other Party, including amount, intensity and purpose of the aid and detailed restructuring plan.

the affected Party may take appropriate measures if no solution is found within 30 days through consultation. Such consultation shall be held in 30 days.

In the case of practices incompatible with paragraph 1(3) of this Article, such appropriate measures may only cover measures adopted in conformity with the procedures and under the conditions laid down by the General Agreement on Tariffs and Trade and any other relevant instrument negotiated under its auspices which are applicable between the Parties.

PROTOCOL 3

on trade between Romania and the Community in processed agricultural products referred to in Article 20 of the Agreement

ARTICLE 1

1. The Community shall grant the tariff concessions referred to in Annex A to products originating in Romania. For goods for which a reduction of the agricultural component is provided for, in accordance with Article 3, such reduction shall be applicable within the quantity limits established in Annex B.
2. From 1 January 1996, Romania shall grant tariff concessions determined in accordance with this Protocol for the processed agricultural products referred to in Annex C.
3. The Association Council may:
 - add to the list of processed agricultural products referred to in this Protocol,
 - increase the quantities of processed agricultural products eligible for the concessions referred to in Annex B.
4. The Association Council may replace the concessions referred to in paragraphs 1 and 2 with a system of compensatory amounts with no quantity limits, established on the basis of the differences found between the prices on the Community and Romanian markets of the agricultural products actually used to produce the processed agricultural products covered by this Protocol. The Association Council shall draw up a list of the products to which the compensatory amounts are applicable and a list of basic products. It shall adopt general implementing rules to that end.

ARTICLE 2

For the purposes of the Articles which follow, the definitions given below shall apply:

- “goods”: the processed agricultural products referred to in this Protocol;
- “agricultural components of the levy”: the part of the levy corresponding to the quantity of agricultural products incorporated into the processed product and deducted from the levy applicable when such agricultural products are imported unprocessed;
- “non-agricultural components of the levy”: the part of the levy remaining when the agricultural component is deducted from the total levy;
- “basic products”: the agricultural products considered as having been used in the production of goods within the meaning of Regulation (EEC) No. 3033/80;
- “base quantity”: the quantity of a basic product calculated in the manner stipulated in Article 6 of Regulation (EEC) No. 3033/80 which is used to determine the variable component applicable to goods of a given type, in accordance with the terms of the same Regulation.

ARTICLE 3

1. From the date this Agreement enters into force, the Community shall phase out the non-agricultural component of the levy in accordance with the timetable set out in Annex A.
2. The Community shall apply to imports originating in Romania an agricultural component set according to the following criteria:
 - (a) For the goods for which Annex A stipulates an agricultural component (MOB), the latter shall be identical to that applying in the case of third countries.
 - (b) For the goods for which Annex A stipulates a reduced agricultural component (MOBR), the latter shall be calculated by reducing the base quantities of the basic products for which a levy reduction is granted by 20% in 1993, 40% in 1994 and 60% from 1995. In the case of other basic products, the corresponding reductions, for the same years, shall be 10, 20 and 30%.

This reduction of the agricultural component shall be granted only within the limits of the tariff quotas established in Annex B; for quantities in excess of those quotas, the agricultural component applying to all third countries shall be restored.

3. The agricultural component of the levy shall be determined according to the rules applicable to the import of processed agricultural products not covered by Annex II of the Treaty establishing the European Economic Community, taking into account the reductions provided for in paragraph 2(b).

ARTICLE 4

1. Before 1 July 1995, Romania shall determine the agricultural component of the levy on the goods referred to in Annex C on the basis of the import duties applicable in 1995 to the basic agricultural products originating in the Community considered to have been used in the production of these goods. It shall forward that information to the Association Council.

2. From the time at which the Agreement enters into force until 31 December 1995, Romania shall apply to the goods referred to in Annex C the rates of duty in force on 28 February 1993. However, if reform of Romanian agricultural policy causes the agricultural component of the levy defined in Article 2 to increase, Romania shall inform the Association Council accordingly, and the latter may agree to an increase in the rate of duty concerned which corresponds to the size of the agricultural component.

3. Romania shall phase out the levies applicable to the goods referred to in Annex C in accordance with a timetable established by the Association Council. Elimination of the non-agricultural component of the levy must be complete by 1 January 2000 at the latest. Reduction of the agricultural component shall be determined by the Association Council on the basis of the concessions applicable to the basic products.

ARTICLE 5

The reduction of the variable components referred to in Article 3(3) shall apply only from¹.

¹The start of the three month period (or the period of determining the variable components) following the entry into force of the (interim) Agreement.

 - (b) products obtained in Romania which contain materials not wholly obtained there, provided that the said materials have undergone sufficient working or processing in Romania within the meaning of Article 5 of this Protocol.

ARTICLE 2

Bilateral cumulation

1. Notwithstanding Article 1(1)(b), materials originating in Romania within the meaning of this Protocol shall be considered as originating in the Community without it being necessary for those materials to have undergone sufficient working or processing, provided they have undergone working or processing going beyond that described in Article 5(3) of this Protocol.
2. Notwithstanding Articles 1(2)(b), materials originating in the Community within the meaning of this Protocol shall be considered as originating in Romania without it being necessary for those materials to have undergone sufficient working or processing, provided they have undergone working or processing going beyond that described in Article 5(3) of this Protocol.

3. Products which have acquired the status of originating products under the terms of paragraph 2 shall continue to be considered as originating in the Community or in Romania, as appropriate, only if the value added to such products exceeds the value of the materials included in the product which originate in Bulgaria.

If this is not the case, the products in question shall be considered as originating in Bulgaria for the purposes of the implementation of this Agreement or of the Agreement between the Community and Bulgaria.

4. "Added value" shall be taken to be the ex works price minus the customs value of each of the products incorporated which did not originate in the country in which those products were obtained.

5. For the purposes of applying this Article, rules of origin identical to those of this Protocol shall be applied in trade conducted between the Community and Bulgaria and between Romania and Bulgaria.

ARTICLE 4

Wholly obtained products

1. Within the meaning of Article 1(1)(a) and (2)(a), the following shall be considered as wholly obtained either in the Community or in Romania:

- (a) mineral products extracted from their soil or from their seabed;
- (b) vegetable products harvested there;
- (c) live animals born and raised there;
- (d) products from live animals raised there;
- (e) products obtained by hunting or fishing conducted there;
- (f) products of sea fishing and other products taken from the sea by their vessels;
- (g) products made aboard their factory ships exclusively from products referred to in subparagraph (f);
- (h) used articles collected there fit only for the recovery of raw materials;
- (i) waste and scrap resulting from manufacturing operations conducted there;
- (j) goods produced there exclusively from the products specified in subparagraphs (a) to (i).

2. The term "their vessels" in paragraph 1(f) shall apply only to vessels:

- which are registered or recorded in Romania or in a Member State of the Community;
- which sail under the flag of Romania or of a Member State of the Community;
- which are owned to an extent of at least 50% by nationals of Romania or of Member States of the Community, or by a company with its head office in one of these States or in Romania, of which the manager or managers, chairman of the board of directors or the supervisory board, and the majority of the members of such boards are nationals of Romania or of Member States of the Community and of which, in addition, in the case of partnerships or limited companies at least half the capital belongs to these States, to Romania, to their public bodies or to their nationals;
- of which the master and officers are nationals of Romania or of Member States of the Community;
- of which at least 75% of the crew are nationals of Romania or of Member States of the Community.

3. The terms "Romania" and "the Community" shall also cover the territorial waters which surround Romania and the Member States of the Community.

Sea-going vessels, including factory ships on which the fish caught is worked or processed, shall be considered as part of the territory of the Community or of Romania provided that they satisfy the conditions set out in paragraph 2.

Sufficiently processed products

1. For the purposes of Article 1, non-originating materials are considered to be sufficiently worked or processed when the product obtained is classified in a heading which is different from that in which all the non-originating materials used in its manufacture are classified, subject to paragraphs 2 and 3.

The expressions " chapters " and " headings " used in this Protocol shall mean the chapters and the headings (four-digit codes) used in the nomenclature which makes up the Harmonized Commodity Description and Coding System (hereinafter referred to as the " Harmonized System " or HS).

The expression " classified " shall refer to the classification of a product or material under a particular heading.

2. For a product mentioned in columns 1 and 2 of the list in Annex II, the conditions set out in column 3 for the product concerned must be fulfilled instead of the rule in paragraph 1.

- (a) Where in the list in Annex II a percentage rule is applied in determining the originating status of a product obtained in the Community or in Romania, the value added by the working or processing shall correspond to the ex-works price of the product obtained, less the value of third-country materials imported into the Community or Romania.
- (b) The term " value " in the list in Annex II shall mean the customs value at the time of the import of the non-originating materials used or, if this is not known and cannot be ascertained, the first ascertainable price paid for these materials in the territory concerned.

Where the value of the originating materials used needs to be established, the provisions of the above subparagraph shall be applied *mutatis mutandis*.

- (c) The term " ex-works price " in the list in Annex II shall mean the price paid for the product obtained to the manufacturer in whose undertaking the last working or processing is carried out, provided the price includes the value of all the materials used in manufacture, minus any internal taxes which are, or may be repaid when the product obtained is exported.
- (d) " Customs value " shall be understood as the value determined in accordance with the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade, established in Geneva on 12 April 1979.

3. For the purpose of implementing paragraphs 1 and 2 the following shall be considered as insufficient working or processing to confer the status of originating products, whether or not there is a change of heading:

- (a) operations to ensure the preservation of products in good condition during transport and storage (ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solutions, removal of damaged parts, and like operations);
- (b) simple operations consisting of removal of dust, sifting or screening, sorting, classifying, matching (including the making-up of sets of articles), washing, painting, cutting up;
- (c) (i) changes of packaging and breaking up and assembly of consignments;
(ii) simple placing in bottles, flasks, bags, cases, boxes, fixing on cards or boards etc., and all other simple packaging operations;
- (d) affixing marks, labels and other like distinguishing signs on products or their packaging;
- (e) simple mixing of products, whether or not of different kinds, where one or more components of the mixture do not meet the conditions laid down in this Protocol to enable them to be considered as originating either in the Community or in Romania;
- (f) simple assembly of parts of articles to constitute a complete article;
- (g) a combination of two or more operations specified in subparagraphs (a) to (f);
- (h) slaughter of animals.

ARTICLE 6

Natural elements

In order to determine whether a product originates in the Community or in Romania, it shall not be necessary to establish whether the electrical power, fuel, plant and equipment and machines and tools used to obtain such product or whether any materials or products used in the course of production which do not enter and which were not intended to enter into the final composition of the product originate in third countries or not.

ARTICLE 7

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle which are part of the normal equipment and included in the price thereof or are not separately invoiced are regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

ARTICLE 8

Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all component articles are originating products. Nevertheless, when a set is composed of originating and non-originating articles, the set as a whole shall be regarded as originating provided that the value of the non-originating articles does not exceed 15% of ex-works price of the set.

ARTICLE 9

Direct transport

1. The preferential treatment provided for under the Agreement applies only to products or materials which are transported between the territories of the Community, Romania or, where the provisions of Article 3 apply, of Bulgaria without entering any other territory. However, goods originating in Romania and constituting one single consignment which is not split up may be transported through territory other than that of the Community, Romania or, where the provisions of Article 3 apply, Bulgaria with, should the occasion arise, transshipment or temporary warehousing in such territory, provided that the goods have remained under the surveillance of the customs authorities in the country of transit or of warehousing and that they have not undergone operations other than unloading, reloading or any operation designed to preserve them in good condition.

2. Evidence that the conditions referred to in paragraph 1 have been fulfilled shall be supplied to the responsible customs authorities by the production of:

- (a) a single transport document issued in the exporting country covering the passage through the country of transit;
- (b) or a certificate issued by the customs authorities of the country of transit;
 - giving an exact description of the goods,
 - stating the dates of unloading and reloading of the goods or of the embarkation or disembarkation, identifying the ships or other means of transport used, and
 - certifying the conditions under which the goods remained in the transit country;
- (c) or failing these, any substantiating documents.

ARTICLE 10

Territorial requirement

The conditions set out in this Title relative to the acquisition of originating status must be fulfilled without interruption in the Community or in Romania except as provided for in Articles 2 and 3.

If originating products exported from the Community or Romania to another country are returned, except insofar as provided for in Articles 2 and 3, they must be considered as non-originating unless it can be demonstrated to the satisfaction of the customs authorities that:

- the goods returned are the same goods as those exported, and
- they have not undergone any operation beyond that necessary to preserve them in good condition while in that country.

TITLE II

Proof of Origin

ARTICLE 11

Movement certificate EUR.1

Evidence of originating status of products, within the meaning of this Protocol, shall be given by a movement certificate EUR.1, a specimen of which appears in Annex III to this Protocol.

ARTICLE 12

Normal procedure for the issue of certificates

1. A movement certificate EUR.1 shall be issued only on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorized representative. Such application shall be made on a form, a specimen of which appears in Annex III to this Protocol, which shall be completed in accordance with this Protocol.

Applications for movement certificates EUR.1 must be preserved for at least two years by the customs authorities of the exporting State.

2. The exporter or his representative shall submit with his request any appropriate supporting document proving that the products to be exported are such as to qualify for the issue of a movement certificate EUR.1.

He shall undertake to submit, at the request of the appropriate authorities, any supplementary evidence they may require for the purpose of establishing the correctness of the originating status of the products eligible for preferential treatment and shall undertake to agree to any inspection of his accounts and to any check on the processes of the obtaining of the above products carried out by the said authorities.

Exporters must keep for at least two years the supporting documents referred to in this paragraph.

3. A movement certificate EUR.1 may be issued only where it can serve as the documentary evidence required for the purpose of implementing the Agreement.

4. The movement certificate EUR.1 shall be issued by the customs authorities of a Member State of the European Economic Community if the goods to be exported can be considered as products originating in the Community within the meaning of Article 1(1) of this Protocol. The movement certificate EUR.1 shall be issued by the customs authorities of Romania if the goods to be exported can be considered as products originating in Romania within the meaning of Article 1(2) of this Protocol.

5. Where the cumulation provisions of Articles 2 and 3 are applied, the customs authorities of the Member States of the Community or of Romania may issue movement certificates EUR.1 under the conditions laid down in this Protocol if the goods to be exported can be considered as products originating in the Community or Romania within the meaning of this Protocol and provided that the goods covered by the movement certificates EUR.1 are in the Community or in Romania.

In these cases movement certificates EUR.1 shall be issued subject to the presentation of the proof of origin previously issued or made out. This proof of origin must be kept for at least two years by the customs authorities of the exporting State.

6. Since the movement certificate EUR.1 constitutes the documentary evidence for the application of the preferential tariff arrangements laid down in the Agreement, it shall be the responsibility of the customs authorities of the exporting country to take any steps necessary to verify the origin of the goods and to check the other statements on the certificate.

7. For the purpose of verifying whether the conditions for issuing EUR.1 certificates have been met, the customs authorities shall have the right to call for any documentary evidence or to carry out any check which they consider appropriate.

8. It shall be the responsibility of the customs authorities of the exporting State to ensure that the forms referred to in paragraph 1 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions. To this end, the description of the products must be indicated without leaving any blank lines. Where the space is not completely filled a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

9. The date of issue of the movement certificate must be indicated in the part of the certificate reserved for the customs authorities.

10. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting State when the products to which it relates are exported. It shall be made available to the exporter as soon as actual export has been effected or ensured.

ARTICLE 13

Long-term certificates EUR.1

1. Notwithstanding the provisions of Article 12(10), a movement certificate EUR.1 may be issued by the customs authorities of the exporting State when only part of the products to which it relates are exported, in the case of a certificate covering a series of exportations of the same products from the same exporter to the same importer, over a maximum period of one year from the date of issue, hereinafter referred to as an "LT certificate".

2. LT certificates shall be issued, in accordance with the provisions of Article 12, at the discretion of the customs authorities of the exporting State and according to their own judgment of the need for this procedure, only where the originating status of the goods to be exported is expected to remain unchanged for the period of validity of the LT certificate. If any goods are no longer covered by the LT certificate, the exporter shall immediately inform the customs authorities who issued the certificate.

3. Where the LT certificate procedure applies, the customs authorities of the exporting State may prescribe the use of EUR.1 certificates bearing a distinctive sign by which they may be identified.

4. Box 11 "Customs endorsement" of the EUR.1 certificate must be endorsed as usual by the customs authorities of the exporting State.

5. One of the following phrases shall be entered in box 7 of the EUR.1 certificate:

- "CERTIFICADO LT VALIDO HASTA EL... ",
- "LT-CERTIFICAT GYLDIGT INDTIL... ",
- "LT-CERTIFICATE GÜLTIG BIS... ",
- "ΠΙΣΤΟΠΟΙΗΤΙΚΟ LT ΙΣΧΥΟΝ ΜΕΧΡΙ... ",
- "LT-CERTIFICATE VALID UNTIL... ",
- "CERTIFICAT LT VALABLE JUSQU'AU... ",
- "CERTIFICATO LT VALIDO FINO AL... ",
- "LT-CERTIFICAAT GELDIG TOT EN MET... ",
- "LT-CERTIFICADO VALIDO ATE... ",
- "CERTIFICAT LT VALABIL PINA LA... ",

(date indicated in Arabic numerals).

6. Reference is not required in box 8 and box 9 of the LT certificate to the marks and numbers and number and kind of packages and the gross weight (kg) or other measures (litres, m³, etc.). Box 8 must, however, contain a description and designation of the goods which is sufficiently precise to allow for their identification.

7. Notwithstanding Article 18, the LT certificate must be submitted to the customs office of import at or before the first importation of any goods to which it relates. When the importer carries out the customs clearance at several customs offices in the State of importation, the customs authorities may require him to produce a copy of the LT certificate to all of those offices.

8. Where an LT certificate has been submitted to the customs authorities, the evidence of the originating status of the imported goods shall, during the validity of the LT certificate, be given by invoices which satisfy the following conditions:

- (a) when an invoice includes both goods originating in the Community or Romania and non-originating goods, the exporter shall distinguish clearly between these two categories;
- (b) the exporter shall state on each invoice the number of the LT certificate which covers the goods and the date of expiry of the certificate and the names of the country or countries in which the goods originate.

The statement on the invoice made by the exporter of the number of the LT certificate with the indication of the country of origin shall constitute a declaration that the goods fulfil the conditions laid down in this Protocol for the acquisition of preferential origin status in trade between the Community and Romania.

The customs authorities of the exporting State may require that the entries which, under the above provisions, must appear on the invoice, be supported by the manuscript signature followed by the name of the signatory in clear script;

- (c) the description and the designation of the goods on the invoice shall be in sufficient detail to show clearly that the goods are also listed on the LT certificate to which the invoice refers;
- (d) the invoices can be made out only for the goods exported during the period of validity of the relevant LT certificate. They may however be produced at the customs office of importation within four months of their being made out by the exporter.

9. In the framework of the LT certificate procedure, invoices which satisfy the conditions of this Article may be made out and/or transmitted using telecommunications or electronic data-processing methods. Such invoices shall be accepted by the customs of the importing State as evidence of the originating status of the goods imported in accordance with the procedures laid down by the customs authorities there.

10. Should the customs authorities of the exporting State identify that a certificate and/or invoice issued under the provisions of this Article is invalid in relation to any goods supplied, they shall immediately notify the customs authorities of the importing State of the facts.

11. The provisions of this Article shall not prejudice application of the rules of the Community, the Member States and Romania on customs formalities and the use of customs documents.

ARTICLE 14

Issue of EUR.1 retrospectively

1. In exceptional circumstances a movement certificate EUR.1 may also be issued after export of the products to which it relates if it was not issued at the time of export because of errors or involuntary omissions or special circumstances.

2. For the implementation of paragraph 1, the exporter must in the written application:
 - indicate the place and date of export of the products to which the certificate relates;
 - certify that no movement certificate EUR.1 was issued at the time of export of the products in question, and state the reasons.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

Certificates issued retrospectively must be endorsed with one of the following phrases:

“NACHTRÄGLICH AUSGESTELLT”, “DELIVRÉ A POSTERIORI”,
“RILASCIATO A POSTERIORI”, “AFGEGEVEN A POSTERIORI”,

4. The endorsement referred to in paragraph 3 shall be inserted in the “Remarks” box on the movement certificate EUR.1.

ARTICLE 15

Issue of a duplicate EUR.1

1. In the event of the theft, loss or destruction of a movement certificate EUR.1, the exporter may apply in writing to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way must be endorsed with one of the following words:

“DUPLIKAT”, “DUPLICATA”, “DUPLICATO”, “DUPLICAAT”,
“DUPLICATE”, “DUPLIKAT”, “ΑΝΤΙΓΡΑΦΟ”, “DUPLICADO”,
“SEGUNDA VIA”, “DUPLICÁT”.

3. The endorsement referred to in paragraph 2 shall be inserted in the “Remarks” box on the movement certificate EUR.1.

4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

ARTICLE 16

Simplified procedure for the issue of certificates

1. By way of derogation from Articles 12, 14 and 15 of this Protocol, a simplified procedure for the issue of EUR.1 movement certificates can be used in accordance with the following provisions.

2. The customs authorities in the exporting State may authorize any exporter, hereinafter referred to as “approved exporter”, making frequent shipments for which EUR.1 movement certificates may be issued and who offers, to the satisfaction of the competent authorities, all guarantees necessary to verify the originating status of the products, not to submit to the customs office of the exporting State at the time of export either the goods or the application for an EUR.1 certificate relating to those goods, for the purpose of obtaining an EUR.1 certificate under the conditions laid down in Article 12 of this Protocol.

3. The authorization referred to in paragraph 2 shall stipulate, at the choice of the competent authorities, that box No. 11 “Customs endorsement” of the EUR.1 movement certificate must:

(a) either be endorsed beforehand with the stamp of the competent customs office of the exporting State and the signature, which may be a facsimile, of an official of that office, or

(b) be endorsed by the approved exporter with a special stamp which has been approved by the customs authorities of the exporting State and corresponds to the specimen given in Annex V of this Protocol. Such stamp may be pre-printed on the forms.

4. In the cases referred to in paragraph 3(a), one of the following phrases shall be entered in box No. 7 “Remarks” of the EUR.1 movement certificate:

“PROCEDIMIENTO SIMPLIFICADO”, “FORENKLET PROCEDURE”,
“VEREINFACHTES VERFAHREN”, “ΑΠΛΟΥΣΤΕΥΜΕΝΗ ΔΙΑΔΙΚΑΣΙΑ”,
“SIMPLIFIED PROCEDURE”, “PROCÉDURE SIMPLIFIÉE”,
“PROCEDURA SEMPLIFICATA”, “VEREENVOUDIGDE PROCEDURE”,
“PROCEDIMENTO SIMPLIFICADO”, “PROCEDURA SIMPLIFICATA”.

5. Box No. 11 "Customs endorsement" of the EUR.1 certificate shall be completed if necessary by the approved exporter.
6. The approved exporter shall, if necessary, indicate in box No. 13 "Request for verification" of the EUR.1 certificate the name and address of the authority competent to verify such certificate.
7. Where the simplified procedure is applied, the customs authorities of the exporting State may prescribe the use of EUR.1 certificates bearing a distinctive sign by which they may be identified.
8. In the authorization referred to in paragraph 2 the competent authorities shall specify in particular:
 - (a) the conditions under which the applications for EUR.1 certificates are to be made;
 - (b) the conditions under which these applications are to be kept for at least two years;
 - (c) in the cases referred to in paragraph 3(b) the authority competent to carry out the subsequent verification referred to in Article 28 of this Protocol.
9. The customs authorities of the exporting State may declare certain categories of goods ineligible for the special treatment provided for in paragraph 2.
10. The customs authorities shall refuse the authorization referred to in paragraph 2 to exporters who do not offer all the guarantees which they consider necessary. The competent authorities may withdraw the authorization at any time. They must do so where the approved exporter no longer satisfies the conditions or no longer offers these guarantees.
11. The approved exporter may be required to inform the competent authorities, in accordance with the rules which they lay down, of the goods to be dispatched by him, so that such authorities may make any verification they think necessary before the departure of the goods.
12. The customs authorities of the exporting State may carry out any check on approved exporters which they consider necessary. Such exporters must allow this to be done.
13. The provisions of this Article shall be without prejudice to the application of the rules of the Community, the Member States and Romania concerning customs formalities and the use of customs documents.

ARTICLE 17

Replacement of certificates

1. It shall at any time be possible to replace one or more movement certificates EUR.1 by one or more other certificates provided that this is done by the customs office or other competent authorities responsible for controlling the goods.
2. When products which originate in the Community, in Romania or, where the provisions of Article 3 apply, in Bulgaria and are imported into a free zone under cover of an EUR.1 certificate undergo treatment or processing, the authorities concerned must issue a new EUR.1 certificate at the exporter's request if the treatment or processing undergone is in conformity with the provisions of this Protocol.
3. The replacement certificate shall be regarded as a definite movement certificate EUR.1 for the purposes of the application of this Protocol, including the provisions of this Article.
4. The replacement certificate shall be issued on the basis of a written request from the re-exporter, after the authorities concerned have verified the information supplied in the applicant's request. The date and serial number of the original movement certificate EUR.1 shall be given in box 7.

ARTICLE 18

Validity of certificates

1. A movement certificate EUR.1 must be submitted, within four months of the date of issue by the customs authorities of the exporting State, to the customs office of the importing State where the products are entered.
2. Movement certificates EUR.1 which are submitted to the customs authorities of the importing State after the final date of presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit the certificates by the final date set is due to reasons of *force majeure* or exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing State may accept the certificates where the products have been submitted to them before the said final date.

ARTICLE 19

Exhibitions

1. Products sent from the Community or Romania for exhibition in a country other than Romania or a Member State of the Community and sold after the exhibition for importation into Romania or the Community shall benefit on importation from the provisions of the Agreement on condition that the products meet the requirements of this Protocol entitling them to be recognized as originating in the Community or in Romania and provided that it is shown to the satisfaction of the customs authorities that:
 - (a) an exporter has consigned these products from the Community or Romania to the country in which the exhibition is held and has exhibited them there;
 - (b) the products have been sold or otherwise disposed of by that exporter to someone in the Community or Romania;
 - (c) the products have been consigned during the exhibition or immediately thereafter to the Community or Romania in the state in which they were sent for exhibition;
 - (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.
2. A movement certificate EUR.1 must be produced to the customs authorities in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the nature of the products and the conditions under which they have been exhibited may be required.
3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

ARTICLE 20

Submission of certificates

Movement certificates EUR.1 shall be submitted to the customs authorities in the importing State in accordance with the procedures laid down by that State. The said authorities may require a translation of a certificate. They may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

ARTICLE 21

Importation by instalments

Without prejudice to Article 5(3) of this Protocol, where, at the request of the person declaring the goods at the customs, a dismantled or non-assembled article falling within Chapter 84 or 85 of the harmonized system is imported by instalments on the conditions laid down by the competent authorities, it shall be considered to be a single article and a movement certificate may be submitted for the whole article upon import of the first instalment.

ARTICLE 22

Preservation of certificates

Movement certificates EUR.1 shall be preserved by the customs authorities of the importing State in accordance with the rules in force in that State.

ARTICLE 23

Form EUR.2

1. Notwithstanding Article 11, the evidence of originating status, within the meaning of this Protocol, for consignments containing only originating products and whose value does not exceed ECU 5 110 per consignment, may be provided by a form EUR.2, a specimen of which appears in Annex IV to this Protocol.
2. The form EUR.2 shall be completed and signed by the exporter or, under the exporter's responsibility, by his authorized representative in accordance with this Protocol.
3. A form EUR.2 shall be completed for each consignment.
4. The exporter who applied for the form EUR.2 shall submit at the request of the customs authorities of the exporting State all supporting documents concerning the use of this form.
5. Articles 18, 20 and 22 shall apply *mutatis mutandis* to forms EUR.2.

ARTICLE 24

Discrepancies

The discovery of slight discrepancies between the statements made in the movement certificate EUR.1 or in the form EUR.2 and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the document null and void if it is duly established that it corresponds to the products submitted.

ARTICLE 25

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the production of a movement certificate EUR.1 or the completion of form EUR.2, provided that such products are not imported by way of trade and have been declared as meeting the conditions required for the application of the agreement, and where there is no doubt as to the veracity of such declaration.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

Furthermore, the total value of those products must not exceed ECU 365 in the case of small packages or ECU 1 025 in the case of the contents of travellers' personal luggage.

ARTICLE 26

Amounts expressed in ECU

1. Amounts in the national currency of the exporting State equivalent to the amounts expressed in ECU shall be fixed by the exporting State and communicated to the other Parties to this Agreement. When the amounts are more than the corresponding amounts fixed by the importing State, the latter shall accept them if the goods are invoiced in the currency of the exporting State.

If the goods are invoiced in the currency of another State and that State is a Member State of the Community, Romania or, where the provisions of Article 3 apply, Bulgaria, the importing State shall recognize the amount notified by the country concerned.

2. Up to and including 30 April 1993, the ECU to be used in any given national currency shall be the equivalent in that national currency of the ECU as at 3 October 1990. For each successive period of two years, it shall be the equivalent in that national currency of the ECU as at the first working day in October in the year immediately preceding that two-year period.

TITLE III

Arrangements for Administrative Co-operation

ARTICLE 27

Communication of stamps and addresses

The customs authorities of the Member States and of Romania shall provide each other, through the Commission of the European Communities, with specimen impressions of stamps used in their customs offices for the issue of EUR.1 certificates and with the addresses of the customs authorities responsible for issuing movement certificates EUR.1 and for verifying those certificates and forms EUR.2.

ARTICLE 28

Verification of movement certificates EUR.1 and of forms EUR.2

1. Subsequent verification of movement certificates EUR.1 and of forms EUR.2 shall be carried out at random or whenever the customs authorities of the importing State have reasonable doubts as to the authenticity of the document or the accuracy of the information regarding the true origin of the products in question.

2. For the purpose of the subsequent verification of movement certificates EUR.1, the customs authorities of the exporting State must keep copies of the certificates, as well as any export documents referring to them, for at least two years.

3. In order to ensure the proper application of this Protocol, Romania and the Member States of the Community shall assist each other, through their respective customs administrations, in checking the authenticity of movement certificates EUR.1, including those issued under Article 12(5), and the forms EUR.2 and the accuracy of the information concerning the actual origin of the products concerned.

4. For the purpose of implementing paragraph 1, the customs authorities of the importing State shall return the movement certificate EUR.1 or form EUR.2, or a photocopy thereof, to the customs authorities of the exporting State, giving, where appropriate, the reasons of form or substance for an enquiry. The relevant commercial documents, or a copy thereof, shall be attached to the certificate EUR.1 or form EUR.2 and the customs authorities shall forward any information that has been obtained suggesting that the particulars given on the said certificate or the said form are inaccurate.

5. If the customs authorities of the importing State decide to suspend execution of the provisions of the Agreement while awaiting the results of the verification, they shall offer to release the products to the importer subject to any precautionary measures judged necessary.

6. The customs authorities of the importing State shall be informed of the results of the verification as soon as possible. These results must be such as to make it possible to determine whether the disputed movement certificate EUR.1 or form EUR.2 apply to the products in question and whether those products can, in fact, qualify for the application of the preferential arrangements.

If in cases of reasonable doubt there is no reply within 10 months of the date of the verification request, or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting authorities shall refuse, except in the case of *force majeure* or exceptional circumstances, any benefit from the preferential treatment laid down in the Agreement.

7. Disputes which cannot be settled between the customs authorities of the importing State and those of the exporting State, or which raise a question as to the interpretation of this Protocol, shall be submitted to the Customs Co-operation Committee.

8. In all cases the settlement of disputes between the importer and the customs authorities of the importing State shall be under the legislation of the said State.

9. NOTES

Foreword

These notes shall apply, where appropriate, to all manufactured products using non-originating materials, even if they are not subject to specific conditions contained in the list in Annex II but are subject instead to the change of heading rule set out in Article 5(1).

Note 1

1.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an “ex”, this signifies that the rule in column 3 or 4 applies only to the part of that heading or chapter as described in column 2.

1.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rule in column 3 applies to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.

1.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rule in column 3 or 4.

Note 2

2.1. The term “manufacture” covers any kind of working or processing including “assembly” or specific operations. However, see Note 3.5 below.

2.2. The term “material” covers any ingredient, raw material, component or part, etc., used in the manufacture of the product.

2.3. The term “product” refers to the product being manufactured, even if it is intended for later use in another manufacturing operation.

2.4. The term “goods” covers both materials and products.

Note 3

3.1. In the case of any heading not in the list or any part of a heading that is not in the list, the “change of heading” rule set out in Article 5(1) applies. If a “change of heading” condition applies to any entry in the list, then it is contained in the rule in column 3.

3.2. The working or processing required by a rule in column 3 has to be carried out only in relation to the non-originating materials used. The restrictions contained in a rule in column 3 likewise apply only to the non-originating materials used.

3.3. Where a rule states that “materials of any heading” may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression “manufacture from materials of any heading, including other materials of heading No...” means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.

3.4. If a product made from non-originating materials which has acquired originating status during manufacture by virtue of the change of heading rule or its own list rule is used as a material in the process of manufacture of another product, then the rule applicable to the product in which it is incorporated does not apply to it.

For example:

An engine of heading No. 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40% of the ex-works price, is made from “other alloy steel roughly shaped by forging” of heading No. 7224.

If this forging has been forged in the country concerned from a non-originating ingot then the forging has already acquired origin by virtue of the rule for heading No. ex 7224 in the list. It can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or another. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

3.5. Even if the change of heading rule or the other rules contained in the list are satisfied, a product shall not acquire originating status if the processing carried out, taken as a whole, is insufficient within the meaning of Article 5(3).

3.6. The unit of qualification for the application of the origin rules shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System. In the case of sets of products which are classified by virtue of General Rule 3 for the interpretation of the Harmonized System, the unit of qualification shall be determined in respect of each item in the set: this provision is equally applicable to sets of headings Nos. 6308, 8206 and 9605.

Accordingly, it follows that:

- when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification,
- when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the origin rules,
- where, under General Rule 5 of the Harmonized System, packing is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Note 4

4.1. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer origin. Thus if a rule says that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.

4.2. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

For example:

The rule for fabrics says that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; one can use one or the other or both.

If, however, a restriction applies to one material and other restrictions apply to other materials in the same rule, then the restrictions only apply to the materials actually used.

For example:

The rule for sewing machines specifies that both the thread tension mechanism used and the zigzag mechanism used must originate; these two restrictions only apply if the mechanisms concerned are actually incorporated into the sewing machine.

4.3. When a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule.

For example:

The rule for heading No. 1904 which specifically excludes the use of cereals or their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not produced from cereals.

For example:

In the case of an article made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth—even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn—that is the fibre stage.

See also Note 7.3 in relation to textiles.

4.4. If in a rule in the list two or more percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. The maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 5

5.1. The term “natural fibres” is used in the list to refer to fibres other than artificial or synthetic fibres and is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, the term “natural fibres” includes fibres that have been carded, combed or otherwise processed but not spun.

5.2. The term “natural fibres” includes horsehair of heading No. 0503, silk of heading Nos. 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos. 5101 to 5105, the cotton fibres of heading Nos. 5201 to 5203 and the other vegetable fibres of heading Nos. 5301 to 5305.

5.3. The terms “textile pulp”, “chemical materials” and “paper-making materials” are used in the list to describe the materials not classified in chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

5.4. The term “man-made staple fibres” is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings Nos. 5501 to 5507.

Note 6

6.1. In the case of the products classified within those headings in the list to which a reference is made to this Note, the conditions set out in column 3 of the list shall not be applied to any basic textile materials used in their manufacture which, taken together, represent 10% or less of the total weight of all the basic textile materials used (but see also Notes 6.3 and 6.4 below).

6.2. However, this tolerance may only be applied to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk;
- wool;
- coarse animal hair;
- fine animal hair;
- horsehair;
- cotton;
- paper-making materials and paper;
- flax;
- true hemp;
- jute and other textile bast fibres;
- sisal and other textile fibres of the genus *Agave*;
- coconut, abaca, ramie and other vegetable textile fibres;
- synthetic man-made filaments;
- artificial man-made filaments;
- synthetic man-made staple fibres;
- artificial man-made staple fibres.

For example:

A yarn of heading No. 5205 made from cotton fibres of heading No. 5203 and synthetic staple fibres of heading No. 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10% of the yarn.

For example:

A woollen fabric of heading No. 5112 made from woollen yarn of heading No. 5107 and synthetic yarn of staple fibres of heading No. 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used up to a weight of 10% of the fabric.

For example:

Tufted textile fabric of heading No. 5802 made from cotton yarn of heading No. 5205 and cotton fabric of heading No. 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

For example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No. 5205 and synthetic fabric of heading No. 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

For example:

A carpet with tufts made from both artificial yarns and cotton yarns and with a jute backing is a mixed product because three basic textile materials are used. Thus, any non-originating materials that are at a later stage of manufacture than the rule allows may be used, provided their total weight taken together does not exceed 10% of the weight of the textile materials in the carpet. Thus, both the jute backing and/or the artificial yarns could be imported at that stage of manufacture, provided the weight conditions are met.

6.3. In the case of fabrics incorporating "yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped" this tolerance is 20% in respect of this yarn.

6.4. In the case of fabrics incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two films of plastic film, this tolerance is 30% in respect of this strip.

Note 7

7.1. In the case of those textile products which are marked in the list by a footnote referring to this note, textile materials with the exception of linings and interlinings which do not satisfy the rule set out in the list in column 3 for the made up products concerned may be used provided that they are classified in a heading other than that of the product and that their value does not exceed 8% of the ex-works price of the product.

7.2. Any non-textile trimmings and accessories or other materials used which contain textiles do not have to satisfy the conditions set out in column 3 even though they fall outside the scope of Note 4.3.

7.3. In accordance with Note 4.3, any non-originating non-textile trimmings and accessories or other product, which do not contain any textiles, may, anyway, be used freely where they cannot be made from the materials listed in column 3.

For example:

If a rule in the list says that for a particular textile item, such as a blouse, yarn must be used, this does not prevent the use of metal items, such as buttons, because they cannot be made from textile materials.

7.4. Where a percentage rule applies, the value of trimmings and accessories must be taken into account when calculating the value of the non-originating materials incorporated.

I have the honour to refer to the discussions concerning trade arrangements for certain agricultural products between the Community and Romania which have taken place in the framework of the negotiations for the Europe Agreement.

I hereby confirm that the Community will take the necessary measures to ensure that Romania will be afforded full access to the import regime for live bovine animals in the framework of Article 13 of Council Regulation (EEC) No. 805/68 on the same conditions as Hungary, Poland and the CSFR from the entry into force of this Agreement.

Imports of live bovine animals not covered by the estimates referred to in Article 13 of Council Regulation (EEC) No. 805/68 and by the Europe Agreements with Hungary, Poland and the CSFR must be limited to calves of a live weight not exceeding 80 kg.

Should forecasts indicate that imports into the Community could exceed 425,000 head and that such imports threaten to cause a serious disturbance of the Community market for beef and veal, the Community reserves the right to adopt appropriate management measures under Council Regulation (EEC) No. 1157/92 and the Europe Agreements, without prejudice to any other right conferred upon it by the Agreement.

I should be obliged if you would confirm that the Government of Romania is in agreement with the content of this letter.

Please accept, Sir, the assurance of my highest consideration.

On behalf of the Community

B. Letter from Romania

Sir,

**DECLARATION BY THE COMMISSION OF THE EUROPEAN COMMUNITIES
CONCERNING ARTICLE 2(3) OF PROTOCOL No. 1**

The Commission of the European Communities hereby confirms that the treatment accorded to Romania under Article 2(3) of Protocol No. 1 is identical in its substance to that accorded under the Protocols agreed with Poland, Hungary and Czechoslovakia, and that in principle any amendment to Regulation (EEC) No. 636/82 would apply to all the five countries of Eastern and Central Europe.

DECLARATIONS BY THE COMMUNITY

Protocol No. 2 on ECSC products

Articles 9(1)3 and 9(4) of Protocol No. 2 on ECSC products

The Community confirms its understanding that public aids referred to in Articles 9(1)3 and 9(4) are exclusively for the purposes of restructuring as defined, and stresses that transport subsidies acting as direct or indirect subsidies to the steel industry are excluded.

Article 9(4) of Protocol No. 2 on ECSC products

It is understood that the possibility of an exceptional extension of the five-year period is strictly limited to the particular case of Romania and does not impair the position of the Community in relation to other cases nor prejudice international commitments. The possible derogation foreseen in paragraph 4 takes into account the particular difficulties of Romania in restructuring the steel sector and the fact this process has been launched very recently.

DECLARATION BY THE COMMUNITY

The Community takes note of the fact that the Romanian authorities will not invoke the provisions of Protocol No. 2 on ECSC products, in particular Article 9, so as not to call into question the compatibility with this Protocol of the agreements made by the Community coal industry with the electricity companies and the steel industry to secure the sale of Community coal.

DECLARATIONS BY THE COMMUNITY

Article 21(4)

The Community confirms its intention to open negotiations on the wine sector with a view to concluding:

—an agreement on reciprocal protection of names of wines and on the inspection of wines;

and

—an agreement on the reciprocal introduction of tariff concessions, subject to compliance with Community import rules, with particular reference to oenological practices and certification.

Article 21(4)

The Community declares its agreement to maintain, for a further five-year period and under the same conditions, the preferential regime for certain cheeses set out in Regulation (EEC) No. 1767/82.

DECLARATIONS BY ROMANIA

Article 8

The total and partial suspensions of customs duties established on a temporary basis by Romanian Government Decision No. 812/1991 are valid only until 31 December 1992.

Article 14(3)

The Romanian party shall transmit to the Community in early 1993, the list containing the products subject to temporary quantitative export restrictions on CN basis (8 digits). Any subsequent modification of these lists shall be notified in due time.

Article 21

The Romanian delegation insists on, and defends its interest in, seeing a solution found at the earliest opportunity under the auspices of the Association Council to its request for an increase in quotas for products under the following CN Codes:
